

Founded in 2003, **Aria Telecom Solutions (P) Ltd.** has grown to become a leader in the voice processing industry, now located in **New Delhi.**

ARIA is the original designer and developer of PC-based voice processing systems. The feature-rich, stable software is designed to run on commercially available PC's and voice processing cards. ARIA can provide your company with the software and hardware to convert existing PC's into efficient Voice Logger and Interactive Voice Response (IVR) systems as well as help you decide on a new PC-based telephony solution for your organization.

In this competitive world every body is busy and need reminder for his important tasks. At the other end all service providers need to be updated with latest technology to stay ahead from their competitions.

Considering the same Aria team has developed unified communication system which will communicate your prospective client automatically as previously scheduled time. Now a days these are the popular communication media.
